

WARNING: PLEASE CAREFULLY READ THE PRECAUTIONS BOOKLET INCLUDED WITH THIS PRODUCT BEFORE USING YOUR NINTENDO® HARDWARE SYSTEM, GAME PAK OR ACCESSORY. THIS BOOKLET CONTAINS IMPORTANT SAFETY INFORMATION.

## IMPORTANT SAFETY INFORMATION - READ THE FOLLOWING WARNINGS BEFORE YOU OR YOUR CHILD PLAY VIDEO GAMES

Some people (about 1 in 4000) may have seizures or black outs triggered by light flashes, such as while watching TV or playing video games, even if they have never had a seizure before.

Anyone who has had a seizure, loss of awareness, or other symptom linked to an epileptic condition should consult a doctor before playing a video game.

Parents should watch when their children play video games. Stop playing and consult a doctor if you or your child have any of the following symptoms:

Convulsions
Altered vision

Eye or muscle twitching Involuntary movements Loss of awareness Disorientation

To reduce the likelihood of a seizure when playing video games:

- 1. Sit or stand as far from the screen as possible.
- 2. Play video games on the smallest available television screen.
- Do not play if you are tired or need sleep.
- 4. Play in a well-lit room.
- 5. Take a 10 to 15 minute break every hour.

## **WARNING - Repetitive Motion Injuries**

Playing video games can make your muscles, joints or skin hurt after a few hours. Follow these instructions to avoid problems such as Tendonitis, Carpal Tunnel Syndrome or skin irritation:

- Take a 10 to 15 minute break every hour, even if you don't think you need it.
- If your hands, wrists or arms become tired or sore while playing, stop and rest them for several hours before playing again.
- If you continue to have sore hands, wrists or arms during or after play, stop playing and see a doctor.

### **WARNING - Battery Leakage**

Leakage of battery acid can cause personal injury as well as damage to your Game Boy. If battery leakage occurs, thoroughly wash the affected skin and clothes. Keep battery acid away from your eyes and mouth. Leaking batteries may make popping sounds.

To avoid battery leakage:

- Do not mix used and new batteries (replace all batteries at the same time).
- Do not mix alkaline and carbon zinc batteries.
- · Do not mix different brands of batteries.
- · Do not use nickel cadmium batteries.
- Do not leave used batteries in the Game Boy. When the batteries are losing their charge, the power light may become dim, the game sounds may become weak, or the display screen may be blank. When this happens, promptly replace all used batteries with new batteries.
- Do not leave batteries in the Game Boy or accessory for long periods of non-use.
- Do not leave the power switch on after the batteries have lost their charge. When you finish using the Game Boy, always slide the power switch OFF.
- Do not recharge the batteries.
- Do not put the batteries in backwards. Make sure that the positive (+) and negative (-) ends are facing in the
  correct directions. Insert the negative end first. When removing batteries, remove the positive end first.
- Do not dispose of batteries in a fire.

### LEVEL 3 - A New Found Friend

In this level, you play as both E.T. and Elliott. Having befriended E.T., you must find all the parts to build a transmitter and help E.T. 'Phone Home.' Transfer control between E.T. and Elliott in order to collect all the parts needed. These parts are shown as tokens of which 16 must be collected to complete the transmitter. When you have all the parts return to the bike.

### LEVEL 7 - Over the Trees

In this level, you play as Elliott. After setting up the transmitter and beaming a signal to E.T.'s ship, both you and E.T. fall asleep. Upon waking, you find E.T. has disappeared. He has been captured by the Agents and taken back to your home, which has been turned into a quarantine area. Rescue E.T. before he can be taken away. When you have found E.T., return to the bike to escape.

# LEVEL 9 - Flight to the Forest

In this level, you play as Elliott. In order to avoid the Agents, E.T. must once again use his powers to levitate the bike through the forest. Now there are even more Agents waiting for you in the trees and on the rooftops. Avoid these, yet still collect the sweets that E.T. needs to keep the bike flying so you can reach the landing area.

## LEVEL 10 - The Spaceship Returns

In this level, you control E.T.'s spaceship. You have successfully reached the landing area, and E.T.'s spaceship is coming in. Agents are on their way here and time is short. Guide the spaceship softly down onto the center of the landing pad where E.T. and Elliott are waiting. If you land too hard or are moving sideways too fast, you'll have to re-attempt the landing.

### HINTS AND TIPS

- Don't use E.T.'s Run too much, it uses up energy.
- When you're outdoors and low on energy, look for flowers to heal with E.T.'s special powers.
- In Level 3, use Elliott's baseballs to knock down hanging tokens, and use E.T.'s powers to levitate objects tokens might be hidden under, such as brick piles and teddy bears. While E.T. levitates the object, use Elliott to pick up the token.
- In Levels 5 and 8, press the B Button at the top of your jumps for maximum height.
- In Level 10, small thrusts work better than big ones.
